

Intent to Sole Source:

The Geospatial Service and Technology Center (GSTC) in Salt Lake City, UT is seeking to purchase Three Articulate Storyline Software licenses.

Articulate products are already used in other training programs within the Geospatial Management Office (GMO) such as GSTC.

The Articulate Storyline software that limits the availability to a sole source are: Only this suggested source can furnish the requirements, to the exclusion of other sources, A search of the manufacture's website was conducted to locate additional vendors; however, Articulate is the only authorized distributor for this product.

There is not an exception within Subpart 5.202 which applies to this case directly.
